

Adhesive Application Audit

OPTIMISING EFFICIENCY THROUGH ONSITE EVALUATION

As an absorbent hygiene manufacturer, keeping your production line up and running efficiently is a top priority. Unexpected downtime impacts productivity and can lead to reduced output and profitability.

Bostik has a comprehensive understanding of adhesive use for baby care, period care, and adult incontinence products. Our experts can review your on-line adhesive systems for potential issues. Receive clear recommendations to optimise your line for hassle-free production.

What: An onsite review of your adhesive application process

Where: Your production facility

Includes:

- Examination of common factors such as application temperature, compression, add-on level, open time, and substrates
- Consideration of environmental factors that may also affect performance
- Recommendations to optimise your use of adhesives to increase productivity and performance, or reduce expense

Contact Bostik for availability and associated costs.

VALUE BEYOND THE ADHESIVE

Support to help you adopt best practices; increase operational efficiency; enable product quality and performance; improve profitability; implement personalised solutions; deliver greater consumer confidence
